

April Summary

Hi Fair Family!

Fair CARE met through April 2020, and had very productive meetings. We are currently discussing good ways our family can resolve conflict with each other - what resources are currently available, what resources we might need to develop, and how to get the word out when we do. We'll also take a look at current processes and investigate if they meet our current needs as an organization. Our steps forward will include gathering information from subject matter experts, collaboration in smaller break out groups, and reporting back to the larger committee.

If you have questions or input for us, please email us at FairCARE@oregoncountryfair.net.
