Minimum Voting Membership Age Survey Results

Total responses 1,115 of which 7 were submitted from the same email address. Upon further review, two of these were from different members who share the same email, two were from a member and her teenage son, two were from an Elections-Bylaws committee member who was testing the system, and three were from a Fair member who was testing the system and us! Duplicate responses from the latter two were deleted. Given this is an informal poll, and the three duplicate responses do not significantly change the results, the committee did not alter the chart.

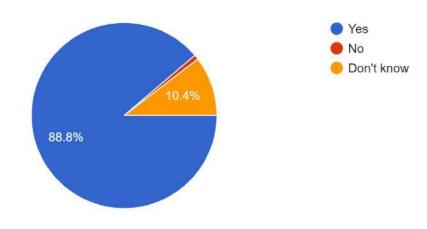

What should the minimum voting age be?

Are you registered as a voting member of OCF?
