

Water Crew Timeline and Requests

~ OCF 2024 ~

We will have someone on site, at the pumphouse starting **Tuesday July 2nd**. If you would like any cleaning water requests before our usual Thursday-Sunday cart runs, *please contact us by one of the several ways we have to be reached at. They are all listed at the bottom of this handout.*

Thursday 7/4, 12-5 pm : Bleach water is available

Bleach water will be offered earlier than usual. You must request bleach water **before** this date.

Systems must be functional and ready by this date if you would like bleach water.

It is the booth's responsibility to use more bleach if needed, and to dispose of bleach water properly.

As always, have your own bleach & test strips on hand.

Friday 7/5 : Additional cleaning water can be provided as requested.

Send someone to the Water Tower, email us at watercrewOCF@gmail.com, QM book, or Tinkerbelle # 68

Wednesday, 7/10 : We're Potable Baby!

Wednesday booth fills are by request only.

This will also be the last day we check the water crew email until the Monday after Fair.

Contact us by Tuesday 7/9, 5:00pm to get on the fill list.

We will be filling booths approximately ¼ full. Full fills will happen Thursday morning.

Thursday, 7/11 - Sunday, 7/14 : AM & PM Cart Runs in Action

From 7-11 our Water Fairies come morning and night.

You must have someone at your booth present for the delivery of water. Failing to do so could delay your water receipt. Our hoses like feeling welcomed!

Important request

Absolutely no hooking up into the water system.

In the event that we have an emergency shut off, we recommend you have 5-10 gallons of water on standby at all times. This should last you while we work quickly to fix whatever repair is needed.

Mason, Adam, River, and Leni are your point of contacts for any questions or concerns.

Water Crew thanks you, and happy Fair to all!
